

COLOP e-mark® cotton ribbons – Product data sheet and description

Short description

The ribbons, which are made of 100 % cotton, are available in widths of 10, 15 and 25 mm, each in lengths of 25 m. Due to their weave density and structure, they are perfectly suited for printing with the COLOP e-mark devices and enable an optimal print image. The ribbons can thus be personalised quickly and easily.

Usage

The cotton ribbons were developed for printing with the COLOP e-mark devices. We recommend using the ribbon guide in the matching size. The ribbon is threaded through the ribbon guide on both sides and the e-mark is inserted into the ribbon guide. Now print with a sideways movement. This works best if you hold the ribbon firmly. To print on longer ribbons, use the 'continuous marking' function in the app.

Note: The 10 mm wide cotton ribbon is narrower than the maximum printing area of the COLOP e-mark. To avoid unnecessary staining, please ensure that the imprint is designed accordingly or use one of the templates specially designed for this width in the e-mark app and on our website.

Any handling other than that described in this document does not comply with the purpose of this product.

The product is not a children's toy.

Product features

- Ribbon compatible with the Ribbon Guides and all e-mark devices
- Ideal for personalising gifts
- Available in three widths

Product information

Material	100 % Cotton		
Colour	White
