

## COLOP e-mark® Cotton Ribbon – Product information

### Short description:

The ribbons, which are made of 100% cotton, are available in widths of 10, 15 and 25 mm (0.39" 0.59" and 0.98"), each with 25 running meters (82 ft) and are perfectly matched to use with the COLOP e-mark Ribbon Guides. Due to their weave density and structure, the ribbons enable an optimal print image.

### Important consumer notice:

The 10mm wide cotton ribbon is narrower than the original print area of the COLOP e-mark. In order to avoid unnecessary soiling, please ensure that the prints are designed accordingly or use one of the templates offered specifically for this width in our COLOP e-mark apps or on our website.

### Product features:

- Ribbon compatible with the Ribbon Guides
- Ideal for personalising gifts
- Available in three widths
