COLOP e-mark® go
Product data sheet
and description

28.11.2024

Short description

The COLOP e-mark® go is a mobile handheld printer to create own imprints and print them by an easy sideways movement. Operated through an app on a mobile device, almost unlimited designs, ready-to-use templates, and special features are available.

Usage

With the e-mark go app, you can create your own prints or use existing templates and send them directly to the e-mark go via Wi-Fi. Now you can print on a wide variety of absorbent materials, such as paper, cardboard, wood or textiles. The e-mark go is always moved sideways over the surface so that the optical sensor can detect the movement. For uneven surfaces or small objects, the use of the COLOP e-mark go ruler is recommended to ensure good print quality. The e-mark go is charged with a USB-C cable and the cartridge can be replaced in just a few simple steps.
Any handling other than that described in this document does not comply with the purpose of this product.
The product is not a children's toy.

Product features

- Multicolour imprints
- Print directly on paper, cardboard, wood, textiles and much more
- Portable and mobile
- Free app for iOS and Android
- Wide range of ready-to-use templates and cliparts
- Design and print in seconds
- Modern and ergonomic design
