COLOP e-mark® go Ruler
Product data sheet and description

Short description

The COLOP e-mark® go ruler enables simple, straight guidance of the device, as well as the printing on difficult/uneven or small objects and surfaces.

To enable particularly precise work, the ruler has a recess on the side for holding a conventional ruler. This allows the distances between the lines to be defined with millimetre accuracy.

The ruler is recommended for printing on the consumables in the COLOP e-mark® product range, especially for the COLOP e-mark® event and party ribbons, the label range and the signs.

Usage

The ruler is used to print in a straight line with the e-mark go or to print on uneven or small objects. The e-mark go is placed on the left or right of the ruler and moved in the direction of the free recess.

Any handling other than that described in this document does not comply with the purpose of this product.
The product is not a children's toy.

Product features

- Side recess for ruler
- Optimal sensor detection
- Ruler in mm and inch for better positioning of imprints
- Made in Austria

Item	COLOP e-mark® go Ruler
Material	ABS
Colour	Sage
Size	250 x 10 x 85 mm / 9.84" x 0.39" x 3.35"
Weight (incl./excl. packaging)	48.9 g / 31.9 g
Packaging dimension (L x W X H)	89 x 13 x 275 mm / 3.5" x 0.51" x 10.83"
Weight of master case (12 pieces)	660 g
Dimensions of master case (L x W x H)	170 x 100 x 285 mm / 6.69" x 3.94" x 11.22"
Compatibility	COLOP e-mark® go
Customs tariff code	39269097
Country of origin	Austria
Item no.	164874
