

COLOP e-mark® UV ink - Product Information

Short description:

Imprints made with the COLOP e-mark® UV ink only become visible when they are illuminated with a UV lamp.

This ink is suitable for use in the event sector as well as for security applications in product labelling or similar.

!Attention! Remove cartridge from e-mark during long usage breaks. After removing from the e-mark, please close the cartridge with the enclosed cap to prevent the paint from drying out!

Please clean the blue silicon pad of the clip before you put it on the cartridge.

Product features:

- Product lifetime sealed – 1 year after production
- Product lifetime opened – 3 months after opening or 3 months up to the end of the one year sealed lifetime
- Easily replaceable
- Applicable on all absorbent surfaces and surfaces with special coating for waterbased inkjet technology
- In the case of materials that contain bleach, the prints can fade or even disappear
- Good water and solvent resistance
